WELCOME

Thank you for considering a field trip or educational visit to the west coast. This regional education asset inventory provides a general overview of the area and is an excellent starting point for planning your trip.

We recognize that the success of your visit depends on finding the right people and places to bring your program to life. The Clayoquot Biosphere Trust (CBT) is always available to offer support for educational programs, field trips and scientific research. We can offer assistance finding meeting spaces, linking with local instructors, accessing local data and archives, and offer shelter from the rain!

If you have any questions, please contact the CBT at your convenience.

Rebecca Hurwitz
Managing Director

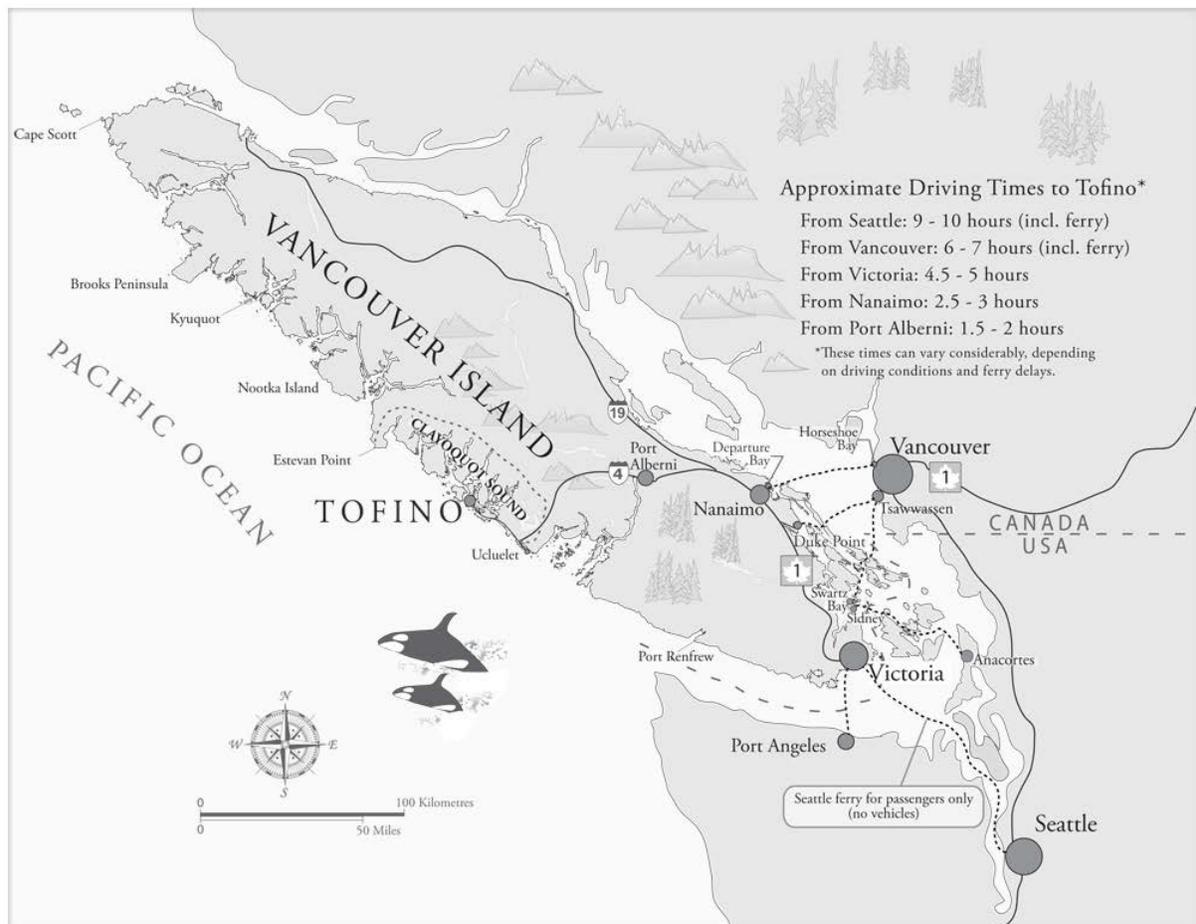

250-725-2219

rebecca@clayoquotbiosphere.org

GETTING TO THE WEST COAST

Clayoquot and Barkley Sounds are accessible by land, air, and sea year round. We are happy to provide assistance planning your journey here. While we can recommend the most practical route based on the specifics of your group, Tourism Tofino (www.tourismtofino.com/getting-to-tofino) provides the most comprehensive directions on how to reach the west coast, including:

- detailed travel directions for arriving by road via Highway 4;
- an up-to-date listing of all airlines servicing Tofino-Long Beach Airport (YAZ); and
- a listing of all charter service and public transportation providers.

NATURAL SETTING AND FEATURES

The Clayoquot and Barkley Sound region encompass a diverse range of ecosystems, including coastal temperate rainforest, large and small lakes, many rivers and streams, alpine peaks, open ocean, rocky coastal shoreline, long sandy beaches, estuaries, and mudflats. This wide

range of habitat types, high proportion of protected area (110,288 ha within the Clayoquot Sound Biosphere Reserve), relatively intact buffer zones, and a low year-round human population has ensured high biological diversity. The region supports several top carnivores — including populations of cougar, wolves, killer whales, raptors — a sign indicative of a relatively intact and healthy habitat. The region is also home to several endangered, threatened or rare species, including the marbled murrelet, sea otter, and red-legged frog.

The region is subject to heavy rainfalls, primarily in winter months, which often results in more than three metres precipitation a year. This regular flow of water over the land brings nutrients to the coastal and off-shore waters, resulting in nutrient-rich environments. The climate is mild, with very few days below freezing and summer maximums rarely exceeding 20° C.

That the land and sea supported large populations of Nuu-chah-nulth people for thousands of years is also indicative of the area's natural richness. Oral histories and ethnographies identify over 270 species used by First Nations populations, from trees and fungi to invertebrates and fish.

Planning to access the waters of Clayoquot and Barkley Sounds? Refer to the following marine charts:

- Barkley Sound chart no. 3671
- Northern Clayoquot Sound chart no. 3641
- Southern Clayoquot Sound chart no. 3673
- Tofino Harbour chart no.3685
- Ucluelet Harbour chart no. 3646

For up to date information on local weather, refer to:

- Environment Canada: http://weather.gc.ca/forecast/canada/index_e.html?id=bc
- The Weather Network: <http://www.theweathernetwork.com/>
- Tide Tables: Tofino http://tides.gc.ca/eng/data/table/2014/wlev_ref/8615 and Ucluelet http://tides.gc.ca/eng/data/table/2014/wlev_sec/8595

Please see Appendix A for list of protected areas in the region.

LOCAL ACTIVITIES AND EXPLORATION

Clayoquot and Barkley Sounds present world class opportunities to get outside and experience the natural environment first hand. Outdoor activities such as surfing, whale watching, and hiking provide experiential learning and allow participants to get to know one another while making lasting memories. Our small communities also add to the student experience as people connect directly with residents.

For detailed listing of local ecotourism operators, please see the business listings in the Communities section of the report, which begins on page 16. The CBT can also suggest activities that would work well with your itinerary.

INSTRUCTIONAL ASSETS

COMMUNITY ORGANIZATIONS

Our region is home to more than 98 community organizations with varied areas of focus. The mandates of the following organizations include education and they may be available to your group for educational activities or information sessions. For a full list of community organization please visit the CBT's Community Organization Directory at <http://clayoquotbiosphere.org/wp-content/uploads/2011/02/Directory-2014.pdf>. Please contact the CBT if you would like assistance linking with local organizations.

Association of Wetland Stewards for Clayoquot and Barkley Sounds: This organization conducts research, monitoring, and education to promote stewardship of amphibians. They offer slide shows, workshops, and educational materials to the public. There are also volunteer

opportunities to help with research, monitoring, and stewardship.

www.splatfrogtunnel.blogspot.com

Carving on the Edge Festival Society: This annual celebrate of west coast carvers is held each September in Tofino and Ucluelet. www.carvingedgefestival.com

Central Westcoast Forest Society: The CWFS participates in stream and ecosystem restoration, research, education, and recreational opportunities. CWFS facilitates activities that include: interpretive walks, public presentations, educational resource materials, workshops on various topics, and educational stewardship events. www.clayoquot.org

Clayoquot Action: Clayoquot Action is a Tofino-based conservation organization committed to protecting the biocultural diversity of Clayoquot Sound through public education, citizen research and monitoring, and advocacy. They are available for information, presentations, and discussions. www.clayoquotaction.org

Clayoquot Biosphere Trust: The CBT conducts and supports research, education, and programs that advance conservation, build our understanding of natural processes in the marine and terrestrial ecosystems, and promote the health of individuals and communities through the Clayoquot Sound Biosphere Reserve Region. The CBT is available to provide background on the history of the creation of the Clayoquot Sound UNESCO Biosphere Reserve and the region in general. The organization operates a remote research cabin in Sydney Inlet.

www.clayoquotbiosphere.org

Friends of Clayoquot Sound: A grassroots, community-based environmental organization with a mission to protect the ancient temperate rainforest and marine environment of Clayoquot Sound. They are available for information talks and discussions. www.focs.ca

hilmehsaqin: hilmehsaqin is a recently developed nuučanuł language and culture organization primarily composed of Ahousaht First Nation members but which includes members from all other nuučanuł nations. Their mission is focused upon a long-term vision of developing a nuučanuł survival school located on remote nuučanuł territories. Their efforts are placed upon providing language immersion, traditional knowledge and skills development, and indigenous foods systems. For more information contact John Rampanen at 250-726-4023; johnnynootka@reindigenize.net.

Hooksum Outdoor School Society: The HOSS facilitates and encourages outdoor, environmental and cultural education and relevant skills training from their school in the traditional territories of the Hesquiaht First Nation. www.hooksumschool.com

K^wisitit Visitor Centre: This interpretive centre for Pacific Rim National Park Reserve includes two floors of exhibits on the natural and cultural history of the region. Park interpreters can provide educational programs. www.pc.gc.ca

Pacific Rim Arts Society: PRAS hosts arts and culture events and workshops, including the Pacific Rim Arts Festival and the Cultural Heritage Festival. They work closely with First Nations communities and participate in youth outreach projects. www.pacificrimarts.ca

Pacific Rim Whale Festival Society: PRWFS hosted its first “whale fest” in 1986. The festival celebrates the migration of the grey whale through a variety of locally-based events. www.pacificrimwhalefestival.com

Quuquatsa Language Society: "Quuquatsa" translates to "the language we speak" and this organization’s vision is to have a fluent Nuu-chah-nulth society/community. The organization plans, advocates, and works to rebuild practices of speaking, thinking, hearing, seeing, and dreaming in the Nuu-chah-nulth languages through preserving, learning, and teaching. For more information contact 250-723-8555; quuquatsa@gmail.com.

Raincoast Education Society: The RES’s activities include summer camps, school programs, and support for local governments and businesses in Tofino and Ucluelet to become more environmentally sustainable. The RES hosts two major events each year: the Shorebird Festival in May and the Lantern Festival in August. The RES also developed the Raincoast Host Program, which trains front-line staff in local ecology and natural history. www.raincoasteducation.org

Strawberry Isle Marine Research Society: The SIMRS conduct research on marine mammals and pelagic birds. They also offer public presentations and education programs, including a Build-a-Whale Project. www.strawberryisle.org

Thornton Creek Enhancement Society: This hatchery outside of Ucluelet works to enhance salmon runs in Barkley and Clayoquot Sounds. The society runs open houses and offers hatchery tours. Contact 250-726-7566.

Tla-o-qui-aht Tribal Parks: The Tla-o-qui-aht Tribal Parks are watersheds managed to integrate human and ecosystem well-being as taught by our ancestors and adapted to today’s situation. Tribal Park staff are available to share their work with researchers and educators and as guides within their territories. For more information go to www.tribalparks.ca or call 1-888-425-3350 or 250-725-3350, ext. 26. The primary contact is Terry Dorward.

Tofino Botanical Gardens Foundation: The TBGF operates the 12-acre Tofino Botanical Gardens and the Ecolodge/Clayoquot Field Station. Their mission is to inspire conservation of the world’s temperate, coastal forests. Through garden exhibits, interpretive tours and signage,

interpretive programs, the TBGF endeavors to explore the relationship between culture and nature by pursuing interests across disciplinary lines. www.tbgf.org

Tofino-Clayoquot Heritage Society: This Tofino-based organization engages in marine and terrestrial archaeology, heritage conservation, historical research, and public education. They have a museum, open on request, and are available for lectures and events. Contact 250-725-2008.

Tofino Salmon Enhancement Society: This hatchery outside of Tofino works to enhance salmon runs in Clayoquot Sound. Hatchery tours available. Contact 250-725-2376.

Ucluelet and Area Historical Society: This organization is working towards a museum for the local region. They have an archive and may be available for presentations. www.pacificrimhistory.com

Ucluelet Aquarium Society: The UAS operates a public aquarium, participates in research, and delivers educational programs at the aquarium and in the field. www.uclueletaquarium.org

West Coast Aquatic: WCA is a leader in watershed and coastal planning activities, aquatic research projects, aquatic economic development and information management. www.westcoastaquatic.ca/

Wild Pacific Trail Society: Dedicated to the promotion, protection, and expansion of scenic walking trails which showcase the unique natural and cultural treasures of the Ucluelet Peninsula. The society also delivers educational programs on the trail and at local beaches. www.wildpacifictrail.com

LOCALLY-DEVELOPED CURRICULUM

Global Education 11/12: Ucluelet Secondary School has developed a school board-approved curriculum for this course, which provides students with an opportunity to learn about a range of global issues and current events culminating in a 10-day field trip abroad.

Kayaking 11/12: Ucluelet Secondary School has developed school board-approved curriculum for the course, which offers students an opportunity to gain the practical skills and certifications needed to work as a sea kayak guide, including leadership and interpretation skills.

Nuu-chah-nulth language resources: a range of resources have been developed including children's books, dictionaries, and a number of software programs. For more information, please contact the Clayoquot Biosphere Trust at 250-725-2219 or www.clayoquotbiosphere.org.

Sustainable Kids: The Tofino Botanical Gardens Foundation has developed curriculum for this program including many ideas for activities and linkages to BC's prescribed learning outcomes. www.tbgf.org/sustainable-kids/curriculum/index.php

Sustainability Studies 11/12: The Clayoquot Biosphere trust developed the curriculum for high school Sustainability Studies which is being offered at Ucluelet Secondary School. www.clayoquotbiosphere.org/web/wp-content/uploads/2012/05/Sustainability_Studies_Curriculum.pdf

LIBRARIES AND ARCHIVES

Many local communities and organizations have their own small libraries and archives of materials related to their mandate. Check with each organization regarding access and use. The following facilities are open to the public.

Clayoquot Biosphere Trust has a library and archive with documents relevant to the Clayoquot Sound Biosphere Reserve Region, including extensive holdings over land-use in the 1980s and '90s that led to the creation of the Clayoquot Sound UNESCO Biosphere Reserve. Many of the holdings can be searched through the on-line database, which is continually being updated. www.westcoastaquatic.info/searchdb/searchdb/

Tofino and Ucluelet both have public libraries with good selections of locally-relevant material. Check on-line for details of hours at www.virl.bc.ca/.

See Appendix B for a list of books related to the Clayoquot Sound Biosphere Reserve Region.

RELEVANT PLANNING AND MANAGEMENT TOOLS

1:50,000 BC Watershed Atlas Maps: A topologically structured digital representation of all aquatic-related features. www.env.gov.bc.ca/fish/watershed_atlas_maps/

A Path Forward Regional Planning Toolkit: A resource guide to support Treaty First Nations, regional districts, and local governments. www.ufn.ca/files/Content/Reports%20PDF/APathForwardtoolkit.pdf

Barkley Community Forest: A proposed community forest licence to be held jointly by the District of Ucluelet and Toquaht Nation with a vision to enhance community stability and quality of life for local residents through community control of the forest resource. The community forest will provide employment and opportunities for diverse utilization of forest

resources in ways that are environmentally, socially, and economically sustainable.

www.barkleyforest.ca/

BC Parks Management Plans: An alphabetical list, by protected area name (provincial parks, ecological reserves, protected areas, and provincial recreation areas), of approved and active management plans, management direction statements, purpose statements, zoning plans, and background reports. www.env.gov.bc.ca/bcparks/planning/mgmtplns/man_plan.html

Clayoquot Sound Land Use Decision: In 1993, the Government of British Columbia made a decision on land use in Clayoquot Sound that sought to ensure environmental protection and the economic health of local communities.

www.for.gov.bc.ca/hfd/library/documents/bib42662.pdf

Clayoquot Sound Land Use Plan: These watershed plans guide sustainable ecosystem management in Clayoquot Sound. www.for.gov.bc.ca/tasb/slrp/plan21.html

Clayoquot and Barkley Sound Marine Spatial Plans: Once approved, these plans and associated tools will help balance the many uses of the coastal environment with the goal of ensuring a healthy economy, culture, and environment. www.westcoastaquatic.ca/marine-spatial-planning/

Clayoquot Sound Scientific Panel Reports: These reports recommend a comprehensive approach to planning that includes all scales: the landscape or watershed level, the forest level, and the site or stand level. www.cortex.ca/dow-cla.html

District of Tofino reports, projects, plans and strategies: A database of all district documents. <https://tofino.civicweb.net/Documents/DocumentList.aspx?ID=27>

District of Ucluelet publications, forms, and by-laws: a listing of all district documents. <http://ucluelet.ca/community/district-of-ucluelet-office/planning-forms-pubs>

Important Bird Area for Canada: The Tofino Wah-nah-jus Hilth-hoo-is Mudflats, along with the long sandy shoreline of Chesterman Beach, are designated an Important Bird Area for Canada. <http://www.ibacanada.ca/site.jsp?siteID=BC002&lang=EN>

Maa-nulth First Nations Final Agreement Act: The final agreement includes information on the rights to harvest, forest tenures and lands authorization, the collection of personal information, and the power to make orders and regulations.

http://www.bclaws.ca/civix/document/id/complete/statreg/07043_36

Maa-nulth First Nations Final Agreement Implementation Report 2011-2012: This report highlights the activities and results of the first year of the Maa-nulth Treaty.

www.ufn.ca/files/Content/Reports%20PDF/Maanulth2011-2012-Online.pdf

Marine Atlas of Clayoquot and Barkley Sounds: A collection of maps illustrating the location of human uses, oceanographic data, and the ecological distribution of a wide range of marine species. The atlas includes over 110 different maps with more than 300 distinct datasets and is a combination of local knowledge and scientific research.

www.westcoastaquatic.ca/plans/marine_atlas/

Nuu-chah-nulth Central Region First Nations Governance Structures 2007/2008: This report provides detailed information on the history, structure, roles, and administration of all levels of Nuu-chah-nulth governance from the local to national level.

www.ecotrust.ca/sites/all/files/ECReport-FNGovernance.pdf

Nuu-chah-nulth Fishing Rights: Nuu-chah-nulth Nations celebrated a major legal victory in 2009 when courts affirmed aboriginal economic fishing rights.

www.uuathluk.ca/wordpress/litigation/fishingrights

Ocean Networks Canada: In 2007, an 840-kilometre seafloor cable was installed from Vancouver Island across the continental shelf into the deep sea. Over 130 instruments continually provide real-time data over the Internet.

www.oceannetworks.ca/installations/observatories/northeast-pacific/barkley-canyon

Pacific Rim National Park Reserve: State of the Park reports and park management plans are available on this federal website. www.pc.gc.ca/eng/pn-np/bc/pacificrim/plan.aspx

Tla-o-qui-aht Tribal Parks: Information on the management objectives including maps.

www.tribalparks.ca/

Tofino Wah-nah-jus Hilth-hoo-is Mudflats, Western Hemisphere Shorebird Reserve:

Designated in 2013, the reserve is comprised of six tidal sand and mud flats, as well as nearby beaches. www.whsrn.org/site-profile/tofino-wah-nah-jus

Vital Signs: This community health snapshot brings together social, cultural, economic, and environmental information to tell a story about the Clayoquot Sound Biosphere Reserve region.

www.clayoquotbiosphere.org/vital-signs/

Yuuʔuʔiʔaʔh laws, regulations and reports: All documents are available at www.ufn.ca.

PROGRAMS, INITIATIVES, AND BRANDS

Clayoquot Sound UNESCO Biosphere Reserve: This designation recognizes the region as a site of excellence for sustainable development. www.clayoquotbiosphere.org/what-we-do/history/

Leadership Vancouver Island: Participants engage in community leadership development through several dynamic individual and group learning opportunities during the 10-month program. www.clayoquotbiosphere.org/core-priorities/leadership-vancouver-island/

Resort Municipality Initiative: Assists small, tourism-based municipalities to support and increase visitation. Tofino and Ucluelet are both resort municipalities. www.ruralbc.gov.bc.ca/about/RMI/RMI_Funding.html

Tofino Ambassador Program: A program for local residents, including seasonal staff, newcomers and business owners, to expand their knowledge of the area and increase their participation in the community. Provides accurate information about the region and reinforces positive service and leadership behavior to enhance visitor experience. www.tofinochamber.org/ambassador_program

Ty-Histanis: Following negotiations with the Federal Government, these lands were transferred to Tla-o-qui-aht First Nations for the planning, design and construction of the new, expanded community. As a result of a comprehensive community engagement process, Tla-o-qui-aht First Nations developed their vision for Ty-Histanis. www.ty-histanis.tla-o-qui-aht.org/

your tofino: The Tourism Tofino campaign to promote and share photos and stories about Tofino. www.tourismtofino.com/yourtofino/

LOGISTICS AND COMMUNITY ENGAGEMENT

BEFORE YOU COME

Book accommodation: In the summer months and on holiday weekends, accommodation, including campsites, *must* be booked in advance. We encourage you to plan your trip during the shoulder seasons when there is often greater availability and reduced costs.

Pack for the weather: Weather can change quickly in the region so packing adequate clothing means you can have a comfortable and active visit, despite the weather. The climate is usually mild, so dress in layers and pack good raingear and waterproof boots. As many locals say, there is no poor weather, only poor clothing.

Be aware of local protocols: If you are researcher, understand that this is a heavily-researched area and that communities can become weary, perhaps even wary, of research and surveys, so it is important to be well-informed. Please review the standard protocols for research for our region available at www.clayoquotbiosphere.org/wp-content/uploads/2011/01/CLARET_StdConV1.1_05.pdf

As well, please review the Protocols and Principles for Conducting Research in a Nuu-chah-nulth Context. www.fnehin.ca/uploads/docs/NTC_Research_Protocol.pdf

Check for local events: The West Coast Community Calendar lists regional events you may want to participate in. www.clayoquotbiosphere.org/west-coast-calendar/

Do some research: Appendix B lists books about the region. Various research projects funded by the CBT are listed here www.clayoquotbiosphere.org/what-we-do/project-archives/. Also, the WildCoast Project has excellent information and background on west coast predators www.clayoquotbiosphere.org/wildcoast-project/. The CBT staff can also help you match resources with the objective(s) of your visit.

WHILE YOU ARE HERE

Be aware of your surroundings: Understand that there are bears, cougars, and wolves in the region. For more information on how to travel in bear, wolf, and cougar country, visit this site from Pacific Rim National Park Reserve. www.pc.gc.ca/pn-np/bc/pacificrim/visit/visit7/visit7c.aspx

Be prepared and travel safe: If you are hiking or boating, ensure you have the adequate gear and training for your chosen activity. Always let someone know where you are going and when you plan to return. You can register your activity at the RCMP or at the Park Administration office in the national park.

Please report your wildlife sightings: If you see wolves, bears, or cougars while you are here, please report your observations to the national park or to the WildSafe Pacific Rim Coordinator at pacrim@wildsafebc.com. An understanding of wildlife behavior and movements throughout the region helps provide a more comprehensive picture of wildlife and their relationship to communities.

Share your knowledge: If you are a researcher, consider sharing knowledge of your work with our communities. West coast communities appreciate hearing about research going on in the region and several local organizations can help you arrange a talk or event.

Contribute: If it fits with the objectives of your organization, consider a short volunteer project. The Clayoquot Biosphere Trust may be able to put you in touch with appropriate organizations, or consult the Community Organization Directory at www.clayoquotbiosphere.org/wp-content/uploads/2011/02/Directory-2014.pdf.

AFTER YOU LEAVE

Share your results: If you are a researcher, keep communities informed of your work and plan a follow up visit so you can share your results. Please send copies (print or electronic) of any papers, magazine articles, books, or reports to the Clayoquot Biosphere Trust so we can have a copy held in the library and archive. Your project partners and the CBT would also be happy to receive photographs or video of your project.

Say thanks: Consider supporting local organizations that have helped you. If you have taken advantage of services provided by local not-for-profit organizations, please consider a donation so that they can continue their work with others.

Spread the word: If you've found this document or other resources helpful, please spread the word to others.

COMMUNITIES

DISTRICT OF TOFINO

Tofino is home to almost 1900 year-round residents and is one of the larger service hubs in the region. Boat and air travel to other communities in Clayoquot Sound originates in Tofino. Tofino has a hospital, pharmacy, medical clinic, library, elementary school, daycares, post office, bank, credit union, several grocery stores, and gas stations.

For more information visit the Tofino-Long Beach Chamber of Commerce website at www.tofinochamber.org and Tourism Tofino at www.tourismtofino.com.

Accommodations

Tofino has a wide range of accommodations available, from luxury hotels to hostels and camping. Tofino is a popular destination and we suggest booking your accommodation as early as possible to ensure that the most appropriate option is available to you. Call us to discuss accommodation options that can meet your groups' needs. In the meantime, visit the accommodation listings on the Tourism Tofino website at www.tourismtofino.com/accommodations/.

Businesses

For a listing of local businesses please see the Tofino-Long Beach Chamber of Commerce Business Directory at www.tofinochamber.org/business_directory.

Additional business information may be found through the Tofino Business Association at www.tofinobusiness.ca/index.htm.

Tourism Tofino provides links to local businesses, tours, and organizations including all kinds of west coast activities such as surfing, hiking, kayaking, wildlife watching, and more. www.tourismtofino.com

Meeting and Event Facilities

Tofino has a range of meeting and event facilities that are available for booking.

Facility	Room	Particulars	Cost	Contact Info
Best Western Tin Wis Resort 1119 Pacific Rim Highway	Conference centre 250 person capacity 4800 square feet	Catering available	\$500	250-725-4445 http://www.tinwis.com
	Boardroom		\$275	

	40 person capacity 800 square feet			
Clayoquot Biosphere Trust 316 Main Street	Meeting room 12 person capacity 500 square feet	No kitchen	By donation	250-725-2219 www.clayoquotbiosphere.org
Clayoquot Sound Community Theatre 380 Campbell Street	Theatre 71 person capacity 1250 square feet	Access to small kitchen permitted	\$110/day	250-725-3691 or 250-266-0133 http://www.tofino.ca/content/community-theatre

	Classrooms 35 person capacity 800 square feet			
	Gymnasium			

Awards and Recognition

Community Energy Association Energy and Climate Action Award in Community Planning and Development (Honourable Mention) 2010: The District of Tofino was recognized for a broad suite of actions to reduce GHG emissions.

Canadian E-Tourism Award for Best Innovative Use of Technology 2013: Tourism Tofino was recognized for the “YourTofino” initiative.

Planning Institute of British Columbia Award of Excellence in Planning 2012: CitySpaces was recognized for the Tofino Vitalization Plan. www.cityspaces.ca/project/tofino-downtown-vitalization-plan/

Union of BC Municipalities Community Excellence Award 2013: The District of Tofino was recognized for Biodiversity Conservation in regards to the conservation of the Tofino Wah-nah-jus Hilth-hoo-is Mudflats.

DISTRICT OF UCLUELET

Ucluelet is a diverse community with a population of approximately 1600 year-round residents. It is located on the protected waters of Ucluelet Harbour, but is moments away from the open Pacific Ocean and Barkley Sound. The community is one of the larger hubs on the west coast and many of the region's residents access the services here. Ucluelet has a medical clinic, grocery stores, a library, gas stations, pharmacies, daycares, restaurants, a post office, a bank, and a credit union. Ucluelet is also home to a community centre, a public aquarium, an elementary school, and a secondary school, which serves all of the high school-aged students from Ucluelet, Tofino, and the Tla-o-qui-aht, Toquaht, and Yuułuʔiłʔatḥ communities.

Ucluelet harbour is one of the largest ports in British Columbia and home to a thriving charter fishing industry, as well as large First Nations and non-First Nations small boat fleet. This level of activity is a testament to the health of the resource and water quality.

Ucluelet's Small Craft Harbour marine facility has 20-amp service, fresh water, a maximum draft of 3.7 metres (12 feet), and is within walking distance of the village centre. For more information please contact Harbour Master Kevin Cortes at the Harbour Office (phone: 250-726-4241, kcortes@ucluelet.ca).

In 2012, the District of Ucluelet installed a boat launch facility to provide public access to Ucluelet Harbour and beyond. The facility has a concrete ramp and 36.7 metres (120 feet) of dock, as well as parking for up to 10 vehicles and trailers. There is no charge to utilize this public facility. The District of Ucluelet also operates the Main Street dock which has limited moorage.

Ucluelet Harbour is home to two private marinas, a fuel dock, a marine ways and shipwright, a repair shop, deep-water anchorages, and a paved dryland sort five hectares in size with a ramp for unloading barges. Significant economic and biomass data is also available as a result of fisheries monitoring activity.

For more information visit <http://ucluelet.ca/>.

Accommodation

Ucluelet has a wide range of accommodations available, from luxury hotels to hostels and camping. Contact the Ucluelet Chamber of Commerce at 250-726-4641 to discuss accommodation options that can meet your groups' needs or visit <http://ucluelet.ca/stay-in-ucluelet/browse-things-to-do> for a listing of accommodation providers.

Businesses

For local accommodation providers please browse the listings at <http://ucluelet.ca/stay-in-ucluelet/browse-things-to-do>.

For a listing of local services and trades please see the Ucluelet Chamber of Commerce Business Directory <http://ucluelet.ca/community/ucluelet-trades-services>.

Prestige Award: (Vancouver Island Economic Developers Association, January 2008)

Silver Award – Most Liveable Community (population under 20,000): recognizing Ucluelet (The International Awards for Liveable Communities, 2006)

PACIFIC RIM NATIONAL PARK RESERVE

Pacific Rim National Park Reserve of Canada is composed of three geographically separate areas.

The Long Beach area is located between the villages of Ucluelet and Tofino, and named after the 16 km (10 miles) sandy beach of Wickaninnish Bay.

The Broken Group Islands area is an archipelago of more than one hundred islands and rocks scattered throughout Barkley Sound and is accessible by boat only.

The West Coast Trail area is a 75 km (47 mile) backpacking route along temperate rainforest, sandstone cliffs, waterfalls, caves, sea arches, sea stacks and beaches

Services

Within the park there are several parking lots and washroom facilities open to the public. There is a day-use fee to enter the park. There are no ATMs in the park and cellular service is limited. The park's visitor centre is at the junction of Highway 4 and the Pacific Rim Highway.

Pacific Rim National Park Reserve offers both marine- and land-based activities, including hiking, kayaking, bird watching, surfing and more. For more information, visit the website <http://www.pc.gc.ca/eng/pn-np/bc/pacificrim>.

The Kwisis Visitor Centre offers displays, films and events on the region's natural and cultural history.

Meeting and event facilities

Kwisis Visitor Centre is available for groups large or small. Contact the park for more information: 250-726-3500; pacrim.info@pc.gc.ca

Accommodation

Greenpoint Campground is located in the Pacific Rim National Park. Reservations are required during the high season. http://www.pc.gc.ca/voyage-travel/reserve/index_e.asp

TLA-O-QUI-AHT FIRST NATIONS

The Tla-o-qui-aht First Nations has three primary communities:

Opitsaht is on Meares Island, across the inlet from Tofino. It is accessible only by boat from Tofino. Approximately 150 people live in Opitsaht. Contact the office at 250-725-3350 for water taxi information. Tofino Water Taxi (<http://tofinowatertaxi.com/>) can also provide assistance.

Esowista is on Long Beach and the new development of **Ty-Hystanis** is adjacent to Esowista, closer to the highway. Approximately 375 people live in Esowista/Ty-Hystanis. These communities are 20 km from the Tofino-Ucluelet junction and approximately 15 km from Tofino.

Please note that Opitsaht, Esowista, and Ty-Hystanis are primarily residential communities and have very few services for visitors. There are no banks, stores, or ATMS. There is limited cellular service.

Accommodation

There is no visitor accommodation in Opitsaht or Ty-Hystanis although groups may obtain permission to camp by special arrangement. Please call the office at 250-725-3350 to discuss.

Esowista has one facility for visitors, the Long Beach Haven B&B. www.longbeachhaven.com

The Tla-o-qui-aht First Nation runs the Tin Wis Best Western in Tofino. www.tinwis.com

Meeting and Event Facilities

For more information or for booking any of the spaces administered by Tla-o-qui-aht First Nations, please contact 250-725-3350.

Meares Island Cultural Centre in Opitsaht can accommodate up to 100 people. Kitchen facilities are available. Access is by water taxi from Tofino.

The Meares Island Heath Centre in Opitsaht can accommodate 20 people in its meeting space and a small lounge area. Kitchen facilities are available. Access is by water taxi from Tofino.

The Tla-o-qui-aht First Nations office in Tofino can accommodate 10-12 in boardroom-style seating. Kitchen facilities are available.

The Esowista Maintenance Building can accommodate small groups in a boardroom style. Esowista is approximately 15 km from Tofino.

The Best Western TinWis Resort in Tofino has a conference centre that can accommodate up to 250 people and board rooms can accommodate up to 45 people. Catering is available. An outdoor covered area suitable for 40 people is also on site. Contact 250-725-4445 or www.tinwis.com.

Knowledge and Capacity of Residents

Tla-o-qui-aht First Nations are rich in history, skills, and capacity in many areas including:

- artists
- canoes
- cultural knowledge and practices
- cultural workshops
- digital storytelling
- elders
- fisherman and harvesters
- governance
- land
- language
- singers and dancers
- speakers
- traditional ecological knowledge

For more information please contact the Tla-o-qui-aht First Nations' office at 250-725-3350.

Tla-o-qui-aht First Nations Organizations

hiłmehsaqin

hiłmehsaqin is a recently developed nuučanuł language and culture organization primarily composed of Ahousaht First Nation members, but including members from all other nuučanuł nations. Their mission is focused upon a long-term vision to develop a nuučanuł survival school located on remote nuučanuł territories. Their efforts are placed upon providing language immersion, traditional knowledge and skills development, and indigenous foods systems. For more information contact John Rampanen at 250-726-4023; johnnynootka@reindigenize.net.

Tla-o-qui-aht Tribal Parks

The Tla-o-qui-aht Tribal Parks are watersheds managed to integrate human and ecosystem well-being as taught by our ancestors and adapted to today's situation. Tribal Park staff is available to share their work with researchers and educators and as guides within their

territories. For more information go to www.tribalparks.ca or call 1-888-425-3350 or 250-725-3350, ext. 26. The primary contact is Terry Dorward.

Quuquatsa Language Society

"Quuquatsa" translates to "the language we speak" and this organization's vision is to have a fluent Nuu-chah-nulth society/community. The organization plans, advocates, and works to rebuild practices of speaking, thinking, hearing, seeing, and dreaming in the Nuu-chah-nulth languages through preserving, learning, and teaching. For more information contact 250-723-8555; quuquatsa@gmail.com.

Businesses

Tla-o-qui-aht First Nations and its members are involved in a broad range of businesses including:

- Butterfly FX Video Productions
- Canoe Creek Hydro Company (www.canoecreek.ca)
- Clayoquot Wild (www.clayoquotwild.com)
- Iisaak Forest Resources (www.iisaak.com)
- Mamook Development Corporation
- Oyster farm
- Sawmill
- T'aaq-wiihak Fisheries
- T'ashii Paddle School (www.tofinopaddle.com)
- TinWis Best Western (<http://www.tinwis.com/>)
- Tla-o-qui-aht First Nations Seafood
- Winchee Hydro Project

Please contact the office at 250-725-3350 for more information and to inquire about individual artists and carvers.

YUUFU?IF?ATH

The Yuufu?if?ath (pronounced yoo-thlew-ilth-uhht) Government is the First Nations government of the Yuufu?if?ath people. Their territory is located at the northern gateway to Barkley Sound with open access to the Pacific Ocean.

The Yuufu?if?ath signed a modern-day treaty with the governments of Canada and British Columbia in April 2011. Yuufu?if?ath is actively pursuing social and economic development, and is exercising its roles and responsibilities as a government. At time of writing, there are approximately 660 Yuufu?if?ath citizens.

The Yuufu?if?ath's main community Hitacu (pronounced Hit-tat-soo) is located on the east shore of Ucluelet Inlet across the bay from the town of Ucluelet and is home to approximately 240 people. Hitacu has a health centre, administration facility, fire hall, youth and learning centre, and community hall. There is a small convenience store, but no bank or ATM. There is cell phone service and high speed internet.

For more information visit www.ufn.ca.

Meeting and Event Facilities

For more information or to book any of the spaces administered by Yuufu?if?ath, please contact the secretary at 250-726-7342.

In late 2014, the Yuufu?if?ath will open a new 17,000 square foot community centre that will include government administration offices, a gymnasium that can accommodate 400 people, various size meeting rooms, and a commercial kitchen. The facility will be equipped with teleconferencing equipment, wireless internet, and a projector.

The Youth and Learning Centre can accommodate 12 people and houses 12 computers, as well as a projector.

Accommodations

There are no accommodations for visitors in Hitacu, however Yuufu?if?ath own and operate the Thornton Motel in Ucluelet. For more information visit www.thorntonmotel.ca. The Wya Point Resort and Campground offers accommodation in lodges and yurts, as well as oceanfront camping. For more information visit <http://www.wyapoint.com>.

Traditional Knowledge

For more information on the locally-available knowledge and skills please contact the Yuufu?if?ath communications coordinator at 250-726-7342.

Businesses

Yuułuʔiʔaṭḥ recognize that economic development is best achieved independent of political influence and considerations, and as such, have established the Ucluth Development Corporation to oversee the businesses owned by the Yuułuʔiʔaṭḥ. These businesses are briefly listed below. For more detailed information please contact the economic development officer at 250-726-3499 or visit www.ucluth.ca.

Business Center and Marina: The business centre and marine facility is located in Hitacu. For more information and moorage inquiries, please contact 250-726-3494.

K^wisitis Feast House (pronounced Qwi-si-tis): Located at the Pacific Rim National Park Reserve at the K^wisitis Interpretive Centre, this restaurant is open for the summer months and is available for special events.

K^wisitis Gift Shop: Located in Pacific Rim National Park Reserve at the K^wisitis Interpretive Centre, this store sells First Nations arts and crafts and national park memorabilia.

Thornton Motel: The Thornton Motel is located in Ucluelet. For more information visit www.thorntonmotel.ca.

YFN Fisheries, Forestry and Renewable Energy: These businesses manage the commercial and food fisheries, as well as forestry. Opportunities for renewable energy such as hydro, solar, and wind energy are currently being researched.

Wya Point Resort: Wya Point Resort offers luxurious lodge accommodations, rustic eco-yurts, and a family-friendly campground. With direct access to pristine private beaches, the resort sits amongst 600 acres of old growth forest, located on an old village site of the Yuułuʔiʔaṭḥ. Visit www.wyapoint.com/ for more information.

Wya Point Surf Shop Café: Located at the Tofino-Ucluelet junction, this retail shop offers surfing lessons and rentals, as well as a café.

Wya Welcome Centre: The Wya Welcome Centre is the reception and booking office for Wya Point Resort and operates a small gift shop.

Videos

Be the Change – A film produced by a group of young Yuułuʔiʔaṭḥ citizens that explores youth understanding the loss of culture and taking steps to reclaim what has been lost. *Be the Change* won the Culture & Heritage Award at the 2013 Cowichan International Aboriginal Film Festival.

HIV Awareness – Get Educated! -- A 12-minute video designed to encourage Yuułuꞑiꞑatḥ citizens to “get the test.” It features HIV testing and education from the perspective of a health clinic nurse and client, as well as the story of one Yuułuꞑiꞑatḥ citizen successfully living a healthy life despite being HIV-positive.

Huꞑinmitin – We Have Returned -- A 25-minute video that depicts the thoughts and reflections of Indian Residential School survivors. Filmed in Hitacu, with historical photos, the film demonstrates the resilience of five Yuułuꞑiꞑatḥ citizens who spent time at different Indian Residential Schools throughout BC.

APPENDIX A: PROTECTED AREAS IN THE CLAYOQUOT AND BARKLEY SOUND REGION.

Tla-o-qui-aht Tribal Parks

Tla-o-qui-aht Tribal Parks are watersheds in Tla-o-qui-aht traditional territory, managed to integrate human and ecosystem well-being, as taught by Tla-o-qui-aht ancestors and adapted to today's situation.

Meares Island was formally declared a Tribal park by the Tla-o-qui-aht Hawiik (hereditary chiefs) in 1984. In 2007, Tla-o-qui-aht First Nations took several more formal steps to carry out traditional teaching principles, by signing an agreement to pursue joint sustainability with the District of Tofino and by partnering with Parks Canada on a Tribal Parks Establishment Project, with the first focus on Haa'uukmin (Kennedy Lake watershed). <http://www.tribalparks.ca/>

Provincial and National Parks

Pacific Rim National Park Reserve – 7862 ha terrestrial; 6763 ha marine

Strathcona Provincial Park – 58,798 ha terrestrial; 513 ha marine

Hesquiaht Peninsula Provincial Park – 6689 ha terrestrial; 1210 ha marine

Flores Island Provincial Park – 4144 ha terrestrial, 2969 ha marine

Clayoquot Arm Provincial Park – 3491 ha terrestrial

Clayoquot Plateau Provincial Park – 3155 ha

Sydney Inlet Provincial Park – 2083 ha terrestrial; 691 ha marine

Vargas Island Provincial Park – 1749 ha terrestrial; 4039 ha marine

Maquinna Provincial Marine Park – 1269 ha terrestrial; 1398 ha marine

Sulphur Passage Provincial Park – 355 ha terrestrial

Tranquil Creek Provincial Park – 299 ha terrestrial

Kennedy Lake Provincial Park – 188 ha

Gibson Provincial Marine Park – 140 ha

Hesquiat Lake Provincial Park – 62 ha terrestrial; 1210 ha marine

Dawley Passage Provincial Park – 62 ha terrestrial; 92 ha marine
